## W03-P3: implement next button and show the sequence in console.log

The screenshot shows a VS Code editor on the left and a web browser on the right. The VS Code editor displays the JavaScript code for the 'next' button functionality, which increments the current item and shows the next review. The web browser shows the 'Our Reviews' page with a review by Susan Smith. The console log shows the sequence of reviews being displayed.

```
const showReview = (person) => {
  const item = reviews[person];
  console.log('item', item);
  img.src = item.img;
  author.textContent = item.name;
  job.textContent = item.job;
  info.textContent = item.text;
}

window.addEventListener('DOMContentLoaded', () => {
  showReview(currentItem);
});

nextBtn.addEventListener('click', () => {
  currentItem++;
  if (currentItem >= reviews.length) {
    currentItem = 0;
  }
  console.log('currentItem', currentItem);
  showReview(currentItem);
});
```

The web browser shows the 'Our Reviews' page with a review by Susan Smith. The console log shows the sequence of reviews being displayed:
